Professional Summary

Python Full Stack Developer with experience building scalable web applications using Django, React.js, and REST APIs. Skilled in developing responsive front-end interfaces, backend systems, and integrating machine learning models into production-ready web applications. Strong understanding of API-driven architecture, debugging, and deploying full-stack applications using modern cloud platforms

Skills

Programming Languages - Python , JavaScript

Frontend Development - HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap, Responsive UI Development, Figma to UI Conversion

Backend Development - Django, Flask, Django REST Framework, MVC Architecture, Authentication & Authorization, CRUD Operations

API Development & Integration: REST APIs, API Integration, JSON, HTTP/HTTPS, Postman, Error Handling, Loading States, Edge Case Handling

Databases: MySQL, PostgreSQL, MongoDB, SQLite, Database Design & Optimization, SQL Queries

Machine Learning / AI: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Feature Engineering, Model Evaluation, ML Model Deployment in Web Apps

Cloud & Deployment – Render, Vercel, Docker

Tools & Version Control: Git, GitHub (Branching, Pull Requests, Code Reviews), Agile Development

Soft Skills: Problem Solving, Team Collaboration, Ownership, Time Management, Communication, Debugging, Attention to Detail

Professional Experience

Full Stack Development Intern, SMEC Technologies

Jan 2026 – Mar 2026

Kochi, India

- Developed web applications using **Python, Django, HTML, CSS, and JavaScript**
- Implemented **RESTful APIs** to support application functionality
- Designed and managed **SQL databases** for efficient data storage
- Assisted in **debugging, testing, and improving application performance**
- Collaborated with team members to build scalable and maintainable web applications

Projects

AI-Powered Job Portal (Full Stack + Machine Learning),

Technologies: Python, Django, Django REST Framework, React.js, Tailwind CSS, PostgreSQL , Scikit-learn, Render, Vercel

- Developed a **full-stack job portal** supporting both candidates and recruiters.
- Built scalable **REST APIs using Django REST Framework**.
- Designed backend architecture following **MVC design principles**.
- Implemented **AI-based resume matching system using machine learning**.
- Performed **API testing using Postman** and optimized database queries.

Disease Prediction Web Application, Technologies: Python, Django, Scikit-learn, HTML, CSS, SQLite, Render

- Developed a **machine learning powered web application** for predicting diseases
- Implemented models for **Heart Disease, Diabetes, and Breast Cancer prediction**
- Built **end-to-end ML pipeline** including data preprocessing and prediction models
- Designed responsive user interface using **HTML, CSS, and Bootstrap**

Education

BSc Computer Science, Mount Seena College of Arts and Science (Affiliated to University of Calicut)

2022 – 2025

Palakkad, Kerala, India

Python Full Stack Development, SMEC Technologies

Jul 2025 – Jan 2026

Kochi, India

Certificates

- Python Full Stack Development Certification – SMEC Technologies, Kochi
- Python Full Stack Development Internship – SMEC Technologies, Kochi
- AI & Machine Learning Workshop – Srishti Innovative Educational Services, Thiruvananthapuram
- Industry Visit – Camerin Health Technologies Pvt Ltd, Infopark Kakkanad

Languages

- Malayalam
- English
